ESLAM MOHAMED

Communications and Computer Engineering Student | AI, Robotics, Software
El Sharkia, Egypt | s-eslam.farahat@zewailcity.edu.eg | github.com/eslammohamed202220-beep

SUMMARY

Communications and Computer Engineering student at Zewail City. Projects include smart gloves for sign-language translation, a pesticide-detection robot, AI study tools, and a C++ farm game.

EDUCATION

Zewail City of Science, Technology and Innovation
Communications and Computer Engineering - current student

STEM El Sharkia School
STEM high school graduate

PROJECTS

AI Smart Gloves for Sign-Language Translation
Worked on an assistive technology concept/prototype connecting glove inputs with AI logic to convert signs into speech.

Agriculture Protectors - Pesticide-Detection Robot
Built and presented an agriculture-focused robotics project for pesticide detection and safer farming; led the team at the Benha University AI Hackathon.

AI Agent Prototypes
Built a study and research assistant prototype to summarize resources, answer questions, and generate study plans. Designed a task automation workflow to break goals into steps and prioritize actions.

Farm Frenzy - C++ Game
Developed an object-oriented Windows farm game with animal care, resource management, timed levels, save/load, and a local leaderboard. Source: github.com/eslammohamed202220-beep/frame_game

AWARDS

- 1st Place - Artificial Intelligence and Embedded Systems Solution Challenge, Menofia University.
- 1st Place - Benha University AI Hackathon / Innovation Marathon; team lead, Agriculture Protectors.
- 3rd Place - Egypt International Science & Technology Fair (EISTF), Chemistry, Physics & Energy, 2024.

TECHNICAL SKILLS

Programming: C++, Python, object-oriented programming
AI and robotics: Prompt engineering, multi-step agent workflows, Arduino, sensors, robotics prototyping
Software: Debugging, project planning, code organization

CERTIFICATIONS

- Stanford University Code in Place - Certificate of Completion, 2024.
- ROBIX Arduino and Introduction to Robotics - Certificate of Achievement, 2023.

LANGUAGES

Arabic (native); English (good)
